

KUSAL KOLAMBAGE

Information Technology Undergraduate | FullStack Developer | MERNStack Developer

Location: Matara, Sri Lanka | **Phone:** +94 77 964 3177 | **Email:** kolambagekusal@gmail.com
GitHub: github.com/IT24102387 | **LinkedIn:** [LinkedIn Profile](#) | **Portfolio :** <https://kusalportfolio1.netlify.app/>

PROFESSIONAL SUMMARY

Motivated Information Technology Undergraduate at SLIIT with hands-on experience in full-stack web and mobile development. Skilled in MERN stack (MongoDB, Express.js, React.js, Node.js), Java, Python, and React Native. Experienced in developing real-world applications such as booking systems, management platforms, and AI/ML projects. Strong knowledge of RESTful APIs, OOP principles, database design (MySQL, MongoDB), and SDLC. Proficient in Git/GitHub and collaborative development. Passionate about building scalable, efficient, and user-friendly software solutions.

EDUCATION

BSc (Hons) in Information Technology Sri Lanka Institute of Information Technology (SLIIT)	2024 – Present
G.C.E Advanced Level (A/L) Matara Central College	2019

PROJECT EXPERIENCE

Tourism and Hotel Management System MERN Stack Developing a scalable tourism and hotel management platform with user management, booking modules, MongoDB integration, responsive UI development, and REST API implementation.	2026 – Present
Tourism & Hotel Management Mobile App React Native Built a mobile application using React Native and Expo for hotel booking and camping equipment rental with authentication and API integration.	2026
Audio Equipment Rental System MERN Stack Engineered a full-stack web application using MongoDB, Express.js, React.js, and Node.js with inventory management, booking management, and role-based dashboard functionality.	2025 – 2026
Breast Cancer Survival Prediction Model AI/ML Project Developed a machine learning model using Python, Scikit-learn, Pandas, NumPy, and Matplotlib for predicting patient survival outcomes through data preprocessing and classification algorithms.	2025
Property Rental Management System Java + SQL Built a property rental management system with Java and MySQL for handling property listings, bookings, and database operations with efficient data persistence and retrieval.	2025

Developed an object-oriented photography booking system using Java with booking management, scheduling workflows, and modular application architecture using OOP principles.

Interactive Arduino-Based Children's Learning Tool**2024**

Designed and developed an interactive hardware-integrated educational system using embedded systems and IoT concepts to improve children's learning experience through audio-visual feedback.

TECHNICAL SKILLS

Programming Languages	-	Java, Python, JavaScript (ES6+)
Frontend	-	React.js, HTML5, CSS3, Tailwind CSS
Backend	-	Node.js, Express.js
Databases	-	MySQL, MongoDB, SQL Server
Mobile Development	-	React Native, Expo
Tools & Version Control	-	Git, GitHub
Software Engineering	-	OOP, REST APIs, CRUD Operations, SDLC, Responsive UI Design

CERTIFICATIONS

• AIML Stage 1 – SLIIT	Completed
------------------------	-----------

SOFT SKILLS

- Team Collaboration
- Communication Skills
- Problem Solving
- Leadership
- Time Management
- Project Coordination
